Obtain your seat to the exclusive hands-on class – Anatomy & Aesthetic Treatments Class with 'Focus on Simulator Injection, Threads and Ultrasonography' this upcoming June 29, presented as the Pre Kolkhida Course, in Tbilisi, Georgia (presential with hands-on format).

During this 1-day VIP Thinkin Class, you will discover innovative teaching formats focusing on the topics of threads and injectables no matter which is your level of knowledge. The purpose of the class is to help you improve your practical skills through innovative concepts as well as through a unique HANDS-ON training with ultrasonography and simulator injections for threads and fillers.
